

Welcome to our Website!

Fall/Winter 2022

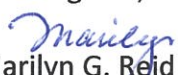

I will be brief, as I know that your time is limited and searching through websites can be time consuming.

There are a couple of key points you should know about our School if you are contemplating a different educational setting for your student. First, we are a small school, by design, that is well suited for students who thrive in a low sensory impacted environment, have average to above average cognitive ability, and with the right structure and supports have the potential to achieve at a high level. (More detail about our student profile is found in the "Admissions" tab). The second point is that all of our students, first and foremost, learn who they are as learners and gain confidence to take "healthy risks" in academics, social interactions, and their physical environment. All of this means that this is a safe place where making mistakes leads to real learning.

The teaching facilities and teachers are superb, the accessible academic heights for our students are unlimited (including Advanced Placement offerings in Art and History), and the focus on social interactions and life skills well positions our students for life after high school.

Seeing is believing. Schedule a tour with our Director of Admissions, Tom Rimer (trimer@willowhillschool.org) or call (978) 443-2581 and ask to speak to Tom. All of us who work at this School feel privileged to be able to make and facilitate life-changing improvements for our students. If you would like to speak to me about our School, please do not hesitate to call and ask for me. Be sure and watch the video in the front page of our website.

Best regards,

Marilyn G. Reid
Head of School
